January 2015

KBL AG

The Beauty & Health Company

PRICELIST 2015

Klaus Lahr,
President of KBL AG

KBL AG
The Beauty & Health Company

Made in Germany. Not just a slogan, but also a promise that is guaranteed by our company to the greatest possible extent. The complete development achievements, including the manufacturing of the devices take place in our headquarters in Dernbach. The focus on our strengths allowed not only the development of devices, that represent a perfect combination of material, technology, design and aesthetics, but also a continuous progress towards pioneering devices. Besides quality and outstanding customer services, KBL is exemplary for innovative products.

Energy Saver signifies a decrease in energy consumption. Reduce your energy consumption without a loss of power! Through a optimal application of the latest EVG-technology, an ideal tanning treatment with a minimum of energy can be obtained. Already in 1997 we developed cpi – controlled power integrated – for our customers. This development constituted the first step towards the saving of energy.

Saving energy for the environment – a further essential feature of our idea for sustainable developments.

In 1996, as the first manufacturer of solariums, KBL obtained the **Environment Certificate DIN ISO 14001**, followed by the Environment Certificate for the entire management system in 2003.

In 2008 KBL put down a marker with the environmental label. The latest technology and innovations provide the possibility to use energy, weight and financial resources more efficiently. **For a green world.**

Sophisticated concepts which pay off. In 2014 the mon amie Collarium® was nominated for the European Spa Award and was honoured with the “Best in Germany” distinction in the category of best technical Spa innovation. In the same year, the revolutionD Collarium®, a concept for tanning beds specially developed for the fitness industry, was honoured with the Innovation Award by one of the leading fitness magazines as the most innovative product of 2014.

Why all this?

Certainly we have your best interests at heart, but we also feel obliged to a gentle and protective dealing with nature. Today is important, though it is absolutely essential for us to leave a lovable and livable world for our children.

KBL AG
The Beauty & Health Company

This price list is valid from **1 January 2015**.

All price lists issued prior to this date are no longer valid. The prices listed (in Euro) represent the prices for end consumers. They are based on the quotation `ex works Dernbach´. We reserve the right to any technical or design modifications as well as changes in price and delivery. All KBL prices stated do not include any timer systems.

Exports and operation of KBL products listed in this catalogue to the USA or Canada are not permitted. In this case KBL does not accept any manufacturer liability. It is explicitly pointed out that any violation of this provision will involve substantial liability risks for the exporter and/ operator.

Technical equipment and design of tanning beds are in accordance with the statutory provisions of the respective country of destination.

Warranty for professional KBL tanning beds and Collariums®

From the point of delivery of the units and for a period of 6 months, KBL AG ensures that in case of proper use the units are not affected with any mistakes which may cancel or reduce the value or the capability for ordinary use (except wear parts such as tubes, facials, starters and acrylics). The warranty is extended to 24 months when returning the warranty certificate within the first four weeks after leaving the factory.

All deliveries are based on our current General Terms and Conditions.

Icons and their meanings

evoSystem2 Reflectors for a better power distribution. Specially refined surfaces for considerably higher efficiency.

p2 tube New pigment tube for perfect and gentle tanning results as well as stimulation and production of Vitamin D3.

electronic Power Electronic ballasts which considerably reduce energy consumption (33%) and the weight of solariums by nearly 100 kg.

aroma Thanks to this optional feature, air can be flavoured during the tanning session.

aquaCool This feature produces a drip-free fine water spray by 2 special jets – refreshing and revitalizing at the same time.

airCon The high performance air-conditioning system ensures a pleasant cooling during the tanning session.

cpi Energy Less energy consumption, more power and longer lifetime of the tubes; All current UV standards can be set on the display by only one click (only possible with original tubes).

Sun on/off UV light can optionally be turned on or off (only possible on collariums)

ACS controls – depending on the room temperature - the intensity of the ventilation and thus the noise level.

USB Enjoy your choice of music thanks to a comfortably accessible USB audio port

bodyCool The innovative megaSun allround ventilation including four separate air supplies ensures an incomparable fresh kick.

x-traTan Modern high pressure tanners ensure extra power and even tan in your shoulder area – more even, more intensive.

preSelection User-friendly display mounted outside the solarium / collarium. You can choose your level of well-being right before the tanning session.

Ruby-Collagen-Booster High-performance LEDs ensure an increased skin moisturizing, revitalization, relaxation and detoxification of the skin.

Bluetooth Listen to your favourite music from your own smartphone during the tanning session.

colorMotion MInnovative LED technology, thrilling you with emotions. Choose your favourite colour with a touch remote control.

musicVibration makes you feel vibration of the music. This feature creates sound, making large surfaces vibrate as a membrane. Thus the sound is distributed more homogeneously in the tanning tunnel and becomes a perfect sound experience: Feel the music!

megaVoice A pleasant voice helps the customer to operate the menu of the tanning bed easily and quickly. Thus it is impossible to make mistakes and ensures the customer feels comfortable, even until the voice says goodbye.

mp3-Sound box Each studio operator can upload music individually to an integrated mp3 player.

volumeControl This feature provides you with constant sound experience. The volume of the internal and external music player is adapted automatically to the volume level of ventilation.

HPE +36% **(High-Performance-Efficiency)** stands for High Performance Efficiency and means 36% more performance and simultaneous reduction of energy consumption and heat development.
